

## Keynote for iPad (Enhanced eBook) 2012

### A Comprehensive Visual Reference Guide

Kevin D Jones, Keynote for iPad Evangelist

What an amazing opportunity to learn a new technology that is taking the business and academic world by storm. Keynote for iPad is the most robust ubiquitous presentation software designed for a tablet device today. The only problem, is that it takes a little know-how to get you going. "Keynote for iPad (Enhanced eBook)" will show you how to master Apples highest grossing presentation app in no time and help you put the **SHOW** back in your **show-and-tell**. From basic iPad use to advanced Keynote techniques are included this award winning eBook.

"Keynote for iPad (Enhanced eBook)" covers every aspect of the software with common sense non-techie definitions. Filled with hundreds of graphics; both static and interactive to guide you through the learning process. This is not your father's engineering technical manual. "Keynote for iPad (Enhanced eBook)" includes interactive videos that show you exactly how and what to do.

Truly the missing manual Apple intended to publish. Our eBook is the highest rated and one of the highest grossing eBooks in our category. "Keynote for iPad (Enhanced eBook)" also includes a complete chapter on what to do after you finish your slides, how to prepare, how to design and ultimately deliver your final presentation.

#### Praise for "Keynote for iPad (Enhanced eBook)"

##### Excellent Book (5 stars)

"The Keynote for iPad book is an excellent guide for someone with a busy lifestyle. I've always wanted to create a keynote presentation with my iPad for work purposes, and now with the help of this book I can."

##### Brilliant! (5 stars)

"Without a doubt one of the best tutorials I have downloaded. It is a quick and logical read for the new user, and provides just the right level of detail needed for keynote! I can't wait to see future enhancements. Definitely worth a review and purchase!"

#### About the Author

Kevin Jones is an accomplished business and technology professional and considered a multimillion dollar presenter. Kevin has delivered presentations to large and small audiences across the globe to close deals, update senior level management and raise capital. He currently lives in Paris, France with his family and is a PhD (candidate). A serial entrepreneur and IT expert, Kevin has mastered the art of closing the deal and is considered to be one of the truly "cool" tech guys.
